Custom AM/MW Multiplexing System

Why multiplex?

1. Facilitates the sale of valuable property on which an existing station may be located
2. Lower cost option than constructing a new site
3. KTL offers turnkey multiplex services backed by 60+ years of experience
4. Potentially enhance audio performance

WKDM/WWRU AM Duplicated DA, Meadowlands, NYC, NY

- Networks Factory Pre-Tuned
- Complete RF Schematic, Electrical Parts List and Installation Instructions
- Wideband Design for HD Radio or Digital Radio Mondiale (DRM) digital performance

- Matching and filter networks fabricated in weatherproof aluminum cabinets with isolated compartments for each network
- Component Voltage and Current Ratings For 125% Positive Peak Modulation
- Silver-plated Inductors (up to 60 A) and Interconnection Tubing and Strap
- Toroidally Sampled RF Current Metering Systems or Thermocouple Meters on Meter Plugs

Painted aluminum weatherproof cabinets with stands configured for installation on concrete pad
